

# Jacket cooled submersible drainage pump for clear water

# C 80

#### **Application**

The C 80 scavenger is suitable for irrigation, water transfer and drainage in clear water. For flat-water exhaust to min. 2 mm. Pumping water from collection tanks, for flood relief and water removal from water courses or reservoirs. Suitable also for water circulation in garden ponds and cascades.

The water jacket cooled motor with the top discharge protects the motor against overheating even during sip operation.

<u>Installation</u>: Permanent or transportable.

Pumped medium: Clear water containing soft solids with a diameter of max. 1 mm. Max. medium temperature: 35°C, short term up to 60°C.

Operation: Permanent.

#### Design

Fully submersible pump consisting of:

<u>Pump:</u> Single stage centrifugal
pump with vertical discharge BSP 3/4" M.

<u>Impeller:</u> Open multi-channel
impeller, spherical clearance 1 mm.

Motor: Canned wet-rotor, seal-less, rotor shaft lubricated by pumped liquid. Insulation class B. Motor protection IP 68.

Shaft/bearing: stainless steel-ceramic shaft, slide bearing.

Cable: H05RN-F3G0,75

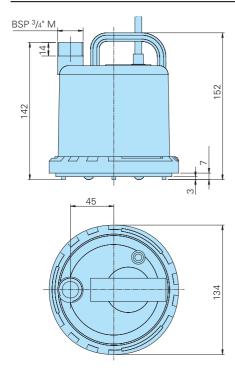

### **Technical Data**

Pump type	Motor- input P1 (kW)	Motor- output P2 (kW)	Voltage 50 Hz (V)	Nominal current (A)	Cable length (m)	Weight (kg)
C 80 W	0,09	0,05	230/1Ph	0,8	10	2,5

Speed: 2900 rpm Discharge: BSP 3/4" M

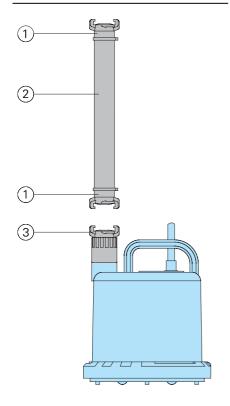

Materials:		Equipment supplied
Motor housing, motor shaft, screws	Stainless steel	Pump with 10 m of cable and plug.
Suction sieve, Pump housing	Wear resistant synthetic mate- rial (composite)	
Impeller	Glass-fibre, rein- forced synthetic material (composite)	
Elastomere	NBR	

## **Dimensions**
